MINUTES OF THE MEETING  
OF  
LOUISIANA WILDLIFE AND FISHERIES COMMISSION

Thursday, October 4, 2001

Chairman H. Jerry Stone presiding.

Terry Denmon  
Tom Gattle  
Norman McCall

Secretary James H. Jenkins, Jr. was also present.

Commissioners Bill Busbice, Lee Felterman and Tom Kelly were absent from the meeting.

Chairman Stone called for a motion for approval of the **September 6, 2001 Commission Minutes**. A motion for approval was made by Commissioner Gattle and seconded by Commissioner Denmon. The motion passed with no opposition.

Chairman Stone recognized Representative Bobby Faucheux and Representative Tom McVea and welcomed them to the meeting.

Chairman Stone then asked for **Public Comments on the 2002 Wild Turkey Season**. Representative Tom McVea, District 62, began stating he represents the parishes of East and West Feliciana, St. Helena, East Baton Rouge, Tangipahoa and Livingston which are premier turkey habitat areas. There is nothing more enjoyable on a spring morning than to hear turkeys gobble. Traditionally the season opened mid-March and ran for 35 to 40 days and this was great. Two years ago, the season was moved to open on March 23 and this was not as good but was acceptable. Now the Commission has suggested opening on March 30 and Representative McVea stated this was not acceptable. He asked the Commission to reconsider and open the season on March 23 like Mississippi. The earlier dates make for a more enjoyable hunt, commented Representative McVea. One of the problems with turkeys is a reduction in population since 1990 and this is caused by urbanization and forestry practices. Another problem is diseased turkeys. In the Feliciana's over the last two years, there has been an increase in the number of turkeys.

Representative McVea stated the Wildlife Division personnel met with them and provided some possible solutions for the problems. They included cutting the harvest from three to two and having a statewide opening. Representative McVea suggested having a no jake rule until the turkey populations return. Again he asked that the turkey season open on March 23. He added he has letters of support from Representative Luke LeBlanc and Senator Barham. Chairman Stone asked if they were asking for an earlier opening date or an extra week. Representative McVea stated no, they just asked that the opening be set to March 23. Commissioner Gattle asked what was the season framework for this area? Mr. Tommy Prickett stated Area A will close on April 28. But if the adjusted opening was selected, then the dates would be March 23 through April 21. Then Commissioner Gattle asked Representative McVea if this was acceptable and the Representative answered yes. Chairman Stone then asked about staying with a statewide opening? Mr. Prickett stated they would like to keep the statewide openings. Chairman Stone then asked if comments have been received from other parts of the State? Mr. Prickett stated no. He then explained why the March 30 opening date was selected. Chairman Stone asked how many days difference on a 10 year average would this make for an opening date? Mr. Prickett answered one or two days, and added March 30 would be the latest opening if they stayed with the same weekend. Then Chairman Stone asked Representative McVea if they were provided with this 10 year information? The Representative stated they were not concerned about 10 years from now, but rather just next year. Commissioner Denmon asked if this opening date would jeopardize missing significant gobbling periods in north Louisiana? Mr. Prickett stated, from information collected, the numbers and frequencies of gobbles heard has continued to increase until the opening day of the season. He added that the turkey season should not open after the peak of gobbling has occurred. Commissioner Gattle asked Mr. Don Puckett if the Commission could change the Notice of Intent to open turkey season on March 23? Mr. Puckett stated the Commission could adjust the dates by passing a resolution to amend the final rule. Chairman Stone commented he was concerned the Commission may hear rumbles from other areas. Commissioner Gattle stated he was in favor of opening the turkey season on March 23 and felt it prudent to let the public know the Commission was considering this date for a statewide opening. Then he asked if there were any other public comments.

Mr. Russell Hutchinson, Tri-Parish Wild Turkey Chapter, began thanking the Department for doing an excellent job in restoring the wild turkey. He felt it was important to go out during the earlier

spring mornings and also felt there would be very little if any opposition to the earlier statewide opening. This date is also the same opening as the State of Mississippi and Mr. Hutchinson felt it would relieve some of the pressure on the turkeys.

Commissioner Gattle made a motion giving notice that the Commission intends to amend the final rule by opening the turkey season on March 23 instead of March 30. Mr. Prickett asked that the motion include adjusting all of the seasons and WMAs also. Commissioner Gattle stated that was the intent of his motion. Commissioner McCall seconded the motion and it passed with no opposition.

**Maurepas Swamp WMA - Presentation by Representative Bobby Faucheux** began with the Representative apologizing for not making the last meeting when this was discussed. He added that the general laws in Louisiana can not be changed until the Session of 2003. There will be 499 members of camps affected with the creation of the Maurepas Swamp WMA. On August 28, 2001, a letter from Secretary Jenkins was sent notifying these people their leases would not be renewed. Last year a similar letter was sent, but then when July came around the letter was retracted. Representative Faucheux then read from a recent article that appeared in the Metro Section of the Times-Picayune. He asked the Commission to reconsider the closure of 9 camps for this particular year until such time as policies can be changed by the Legislature. After reviewing the donation for the St. John area, Representative Faucheux stated he saw no prohibition to leasing those camps until a management program can be established. Copies of deer herd management plans from three camps were provided to the Commissioners. The hunting camps have made the herd population what they are through contacts with the Department staff and other people. If these camps were not managed, Representative Faucheux commented there would be no deer on the WMA. It will take a period of time for Department staff to learn about the deer herd, whereas they could talk with camp owners and learn how they have managed the deer for the last 50 years. Also, by allowing camp owners to remain on the WMA will reduce the possibility of criminal activity occurring. Again, Representative Faucheux asked the Commission to allow these people the chance to go into their camps from November 1, 2001 until the end of January 2002. This would give the opportunity for all parties to meet and come up with a plan to make the WMAs the best they can be. An example of state lands being leased to people occurs in the Atchafalaya Basin. Representative Gary Smith asked that a letter addressed to Secretary Jenkins be

submitted for the record. The WMAs are examples of natural resources that should be more accessible for the citizens of Louisiana to be used as much as possible. Representative Faucheux agreed that the campers would abide by all of the rules and regulations set forth by the Commission and Legislature. With regard to the new tagging system, the Representative stated they were working with the staff to make the permits as accessible as possible. From a meeting with the Governor, Representative Faucheux understood he wanted to try to work with the campers as long as it does not affect the general population. Commissioner Denmon asked what type of legislation would be proposed to change these rules? Representative Faucheux stated they have not started working on the process, but wanted to look at the policies that State Lands use as long as it does not conflict with the Constitution or the will of the citizens. He added he does not feel camps on WMAs would conflict with what was occurring in State Parks and Atchafalaya Basin. Commissioner Denmon then asked if proposed legislation would be to allow campers to remain permanently and/or on other WMAs? Representative Faucheux stated that was a possibility or maybe the camps would be phased out. Again, he noted the 9 camp sites in question were never given the opportunity to buy their camps, but there are 70 privately owned camps along the Blind River that will be able to use the WMA for hunting or fishing. Another discussion going on is the buying of additional lands outside of the WMA and exchanging that acreage for the land where the camps are now located. Commissioner Denmon then asked if the people in the camps were given an opportunity to renew their leases? Representative Faucheux stated the people in the camps along Blind River were allowed to purchase those sites. But the people along the Reserve Canal and Mississippi Bayou were never given the opportunity to buy.

Secretary Jenkins stated a letter was actually sent on June 13, 2001 from the prior landowner canceling all of the leases, which means no one has a lease and the property belongs to the Department. He added that to re-lease or sale the property would break the Deed of Donation. It has been a historic policy for this Department not to allow individuals to own property within our property. Over 250 camps have been removed from WMAs in prior years, commented Secretary Jenkins. In the Governor's meeting, the Governor stated it would be unconstitutional to consider leasing the land. Secretary Jenkins then stated they would meet with the camp owners and Representative Faucheux to see if minor adjustments could be made. The leases that are on State Lands property right now will not be renewed when their time expires. The land was

accepted by the Department with no leases, but if the land was leased, then the public bid process would have to be followed, added Secretary Jenkins. Commissioner Gattle asked if the 9 camp sites were on leased property and not owned property? Secretary Jenkins stated these sites were on year to year leases. Commissioner Gattle then asked if L & M Holdings notified the camp owners in June that the leases would not be renewed? Secretary Jenkins stated yes. He added the Department notified these people as soon as the Department acquired the property which was in August. The Department has a lot of restraints on what can be done legally with the WMA. Commissioner Denmon asked Representative Faucheux if the issue was the time needed to vacate the property or was it to allow the people to keep their camps permanently? Representative Faucheux stated he was asking that the camp owners be allowed to occupy their camps from November 1 through the end of January. Commissioner Denmon asked if the issue was more of an orderly transition? Representative Faucheux answered yes, at this time. Commissioner Denmon stated he appreciated what the Representative was asking for, but noted the Department has to have a policy and it has to apply to all WMAs. Chairman Stone then asked for a motion and none were made.

The **Monthly Law Enforcement Report for September** was given by Major Keith LaCaze. The following numbers of citations were issued during the month of September.

Region I - Minden - 49 citations and 1 warning.

Region II - Monroe - 60 citations and 6 warnings.

Region III - Alexandria - 92 citations and 27 warnings.

Region IV - Ferriday - 43 citations and 5 warnings.

Region V - Lake Charles - 143 citations and 5 warnings. Commissioner McCall asked Major LaCaze to explain the citation "failure to comply with charterboat regulations". Major LaCaze stated he was not familiar with it but added he would find out.

Region VI - Opelousas - 118 citations and 12 warnings.

Region VII - Baton Rouge - 186 citations and 14 warnings.

Region VIII - New Orleans - 192 citations and 25 warnings.

Region IX - Schriever - 265 citations and 46 warnings.

Oyster Strike Force - 59 citations.

Seafood Investigation Unit - 23 citations.

SWEP - 7 citations.

Refuge Patrol - 52 citations and 17 warnings.

The grand total of citations issued statewide for the month of September was 1,290. Also there were 141 warning citations issued statewide. The aviation report for September 2001 showed enforcement pilots flew three airplanes a total of 49.2 hours for enforcement and 23.9 hours for other divisions. Three citations were issued. Then Major LaCaze announced a total of 4,503 students received their hunter education certificates for the month. Also he reported a new Wildlife Enforcement Training Academy began on October 1 with 20 students. Commissioner McCall asked how long will the class last? Major LaCaze answered about 6 months.

Mr. Bennie Fontenot handled the next agenda item, a **Resolution for Domestication of Freshwater Prawns**. The resolution would allow fish farmers in Louisiana to attempt to raise freshwater prawns. Research was conducted on this fish at Rockefeller Refuge and staff there recommends that they be allowed into Louisiana. Work has also been conducted with the LSU Extension Service and they are in favor of domesticating this fish. Nature controls this animal when water temperatures reach 55° or lower. The Department continually receive requests asking for a chance to experiment with this fish. Mr. Fontenot then introduced Dr. Greg Lutz with the LSU Extension Service and stated he could answer questions the Commission may have. Commissioner Gattle asked if the Malaysian prawn would be raised only in ponds and would not be released into state waters. Mr. Fontenot stated they would be raised under the guidelines of a Fish Farmer. Commissioner Gattle asked if the prawn had any negative effects to Louisiana's indigenous fish? Mr. Fontenot answered no. Chairman Stone asked what was the target size for the fish? Dr. Lutz stated typical size for marketing is 20 to 25 to the count. Other states conducting research included North Carolina, Indiana, Kentucky, Mississippi, Texas and Florida. Chairman Stone asked if any impact studies have been conducted on the shrimp industry? Dr. Lutz stated there has been no documented evidence of an impact. He then explained the life cycle of this particular prawn. Hearing no further questions or comments,

Chairman Stone then asked Mr. Fontenot to read the Resolution. Commissioner McCall made a motion adopting the Resolution and it was seconded by Commissioner Gattle. The motion passed with no opposition.

(The full text of the Resolution is made a part of the record.)

## LOUISIANA WILDLIFE AND FISHERIES COMMISSION

### RESOLUTION

October 4, 2001

Pursuant to R.S. 56:411 et seq., this Commission does hereby officially give its approval for the freshwater Malaysian Prawn (*Macrobrachium rosenbergii*) as an exotic fish which may be grown, managed and harvested as a "domesticated fish" under the Domestic Fish Farming Program.

---

Dr. H. Jerry Stone, Chairman  
Louisiana Wildlife & Fisheries  
Commission

A Notice of Intent on an Outdoor Press License was presented by Ms. Marianne Burke. This Notice of Intent came as a result of Act 582 from this last Legislative Session. It requires the creation of a new Outdoor Press License for non-resident members of the outdoor press. This license covers a basic and saltwater fishing license for the fee of \$20 for four consecutive days. This has been a joint venture between the Culture, Recreation and Tourism Office (CRT), Louisiana Promotion and Travel Association (LPTA) and this Department. CRT has agreed to certify a member of the press for the Department. Once that person is certified, the Department will then approve or disapprove the application. The outdoor press member must be directly related to producing stories or broadcast for Louisiana. Chairman Stone asked if this allows these people to be treated as residents? Ms. Burke stated yes, more or less. Commissioner Denmon asked how much would the license cost if this special license was not approved? Ms. Burke answered \$60, but it could depend on each situation. Commissioner Denmon then asked if the license covers fishing only and was this what the Legislation provided? Ms. Burke stated it was for fishing only because some outdoor writers do not meet the hunter education

requirement for hunting. She added that 99 percent of the writers are in Louisiana to talk about fishing. CRT and LPTA were agreeable with the Notice of Intent.

Chairman Stone asked Mr. Joe Macaluso if he had any comments. Mr. Joe Macaluso, outdoor writer for The Advocate, began stating he worked closely with LPTA on this bill and told them there is already a fee that covers charterboats. He felt the bill did not go far enough in establishing a hunting license. There are less than 100 people in the country that works for a daily newspaper in recreation and outdoor writing. Mr. Macaluso commented this was a good bill for some writers. He added that he was amazed at the number of stories on Louisiana especially from the Venice and Calcasieu Lake areas.

Ms. Burke noted that the writers will be able to plan ahead of time and there should be enough time to prove who they are and why they will be in Louisiana. Commissioner McCall made a motion accepting the Notice of Intent and it was seconded by Commissioner Gattle. The motion passed unanimously.

(The full text of the Notice of Intent is made a part of the record.)

#### NOTICE OF INTENT

Department of Wildlife and Fisheries  
Wildlife and Fisheries Commission

The Wildlife and Fisheries Commission does hereby give Notice of Intent to promulgate a Rule, LAC 76:I.327.P, which provides a special outdoor press license for purchase by nonresident members of the outdoor press for a fee of twenty dollars. The license shall be valid for four consecutive days. Authority for adoption of this Rule is include in R.S. 56:647.1. Said Rule is attached to and made part of this Notice of Intent.

#### Title 76

#### WILDLIFE AND FISHERIES

#### Part I. Wildlife and Fisheries Commission and Agencies Thereunder

## Chapter 3. Special Powers & Duties

### Subchapter H. Electronic Licenses Issuance

#### §327. Recreational Electronic Licensing

\* \* \*

P. In lieu of recreational basic fishing and recreational saltwater fishing license the Department may issue a special Outdoor Press License to nonresident members of the outdoor press which will include basic and saltwater fishing.

1. A fee of twenty dollars will be charged for each outdoor press license issued and the license shall be valid for four consecutive days.

2. All Outdoor Press licenses will be issued from the Baton Rouge Headquarters location.

3. To qualify for certification an applicant must submit to the Department of Culture, Recreation and Tourism one or more of the following:

- a. Recent tear sheets of published articles;
- b. Letter of assignment from publication, television or radio company;
- c. A written recommendation from one of the Department of Culture, Recreation and Tourism's international offices;
- d. A written recommendation from Travel South USA, Louisiana Travel Promotion Association or similar organizations;

4. In no case will the Department of Culture, Recreational and Tourism forward an application from any individual or group not directly involved in producing stories or broadcast materials pertaining to Louisiana fishing and/or outdoor recreation opportunities.

5. Certified applications with all supporting documents and license fees shall be forwarded to the Department of Wildlife

and Fisheries for approval. The license fee shall be returned to the applicant for any application not certified by the Department of Culture, Recreation and Tourism or approved by the Secretary of the Department of Wildlife and Fisheries.

AUTHORITY NOTE: Promulgated in accordance with R.S. 56:6(21) and R.S. 56:641.1.

HISTORICAL NOTE: Promulgated by the Department of Wildlife and Fisheries, Office of Management and Finance, LR 24:505 (March 1998), amended by Department of Wildlife and Fisheries, Wildlife and Fisheries Commission, LR 26:1078 (May 2000), amended by Department of Wildlife and Fisheries, Office of Management and Finance, LR 27:1243 (August 2001), amended by Department of Wildlife and Fisheries, Wildlife and Fisheries Commission, LR .

The Secretary of the Department of Wildlife and Fisheries is authorize to take any and all necessary steps on behalf of the Commission to promulgate and effectuate this Notice of Intent and the final rule, including but not limited to, the filing of the fiscal and economic impact statements, the filing of the Notice of Intent and final rule and the preparation of reports and correspondence to other agencies in government.

Interested persons may submit comments relative to the proposed Rule to Marianne Burke, Public Information Section, Department of Wildlife and Fisheries, Box 98000, Baton Rouge, LA, 70898-9000, prior to Thursday, December 6, 2001.

In accordance with Act #1183 of 1999, the Department of Wildlife and Fisheries/Wildlife and Fisheries Commission hereby issues its Family Impact Statement in connection with the preceding Notice of Intent: This Notice of Intent will have no impact on the six criteria set out at R.S. 49:972(B).

Dr. H. Jerry Stone  
Chairman

The Public Information Quarterly Section Report was also handled by Ms. Marianne Burke. A video was shown covering the publications, special events, media events and library activities conducted during this quarter. Following the video, Ms. Burke thanked Mr. Joel Courtney for assembling it in a day's time. The footage from National Hunting and Fishing Day in Baton Rouge helped show that it is one of the most positive images for the Department. Even though there are four sites throughout the state for this

event, the Public Information Section coordinates this event for Baton Rouge only. Coordination for the other locations are through the Educators in the Fur & Refuge Division. Ms. Burke felt all of the staff statewide does an excellent job in promoting this event. In July, a group of federal and state fish and game public information officers, called the Association for Conservation Information, met and chose the *Louisiana Conservationist* calendar issue as the third place winner in the nation. Chairman Stone thanked Ms. Burke for a job well done.

The Commissioners agreed to hold the **February 2002 Meeting** on Thursday, February 7, 2002 beginning at 10:00 a.m. at the Baton Rouge Headquarters.

Chairman Stone then asked for any **Public Comments**. Mr. Chris Guidry began by commending the Public Information staff for a wonderful video. He stated he wanted to reiterate everything that Representative Faucheux asked for from the Commission. Mr. Guidry then asked that an editorial from the Times-Picayune on hunters from St. John the Baptist Parish be entered into the record. Also, he asked that a copy of a Resolution passed by the Parish Council be entered. Finally, Mr. Guidry encouraged the Department to answer questions the local government has on what to expect from the WMA designation.

There being no further business, Commissioner Gattle made a motion to **Adjourn** the meeting and it was seconded by Commissioner Denmon.

  
James H. Jenkins, Jr.  
Secretary

NOTES OF THE MEETING

OF

LDLIFE AND FISHERIES COMMISSION

Thursday, October 4, 2001

presiding.

~~Terry Denmon~~

Tom Gattle

Norman McCall

Secretary James H. Jenkins, Jr. was also present.

Commissioners Bill Busbice, Lee Felterman and Tom Kelly were absent from the meeting.

Chairman Stone called for a motion for approval of the **September 8, 2001 Commission Minutes**. A motion for approval was made by Commissioner Gattle and seconded by Commissioner Denmon. The motion passed with no opposition.

Chairman Stone recognized Representative Bobby Faucheux and Representative Tom McVea and welcomed them to the meeting.

Chairman Stone then asked for **Public Comments on the 2002 Wild Turkey Season**. Representative Tom McVea, District 62, began stating he represents the parishes of East and West Feliciana, St. Helena, East Baton Rouge, Tangipahoa and Livingston which are premier turkey habitat areas. There is nothing more enjoyable on a spring morning than to hear turkeys gobble. Traditionally the season opened mid-March and ran for 35 to 40 days and this was great. Two years ago, the season was moved to open on March 23 and this was not as good but was acceptable. Now the Commission has suggested opening on March 30 and Representative McVea stated this was not acceptable. He asked the Commission to reconsider and open the season on March 23 like Mississippi. The earlier dates make for a more enjoyable hunt, commented Representative McVea. One of the problems with turkeys is a reduction in population since 1990 and this is caused by urbanization and forestry practices. Another problem is diseased turkeys. In the Feliciana's over the last two years, there has been an increase in the number of turkeys.

Representative McVea stated the Wildlife Division personnel met with them and provided some possible solutions for the problems. They included cutting the harvest from three to two and having a statewide opening. Representative McVea suggested having a no jake rule until the turkey populations return. Again he asked that the turkey season open on March 23. He added has letters of support from Representative Luke LeBlanc and Senator Barham. Chairman Stone asked if they were asking for an earlier opening date or an extra week. Representative McVea stated no, they just asked that the opening be set to March 23. Commissioner Gattle asked what was the season framework for this area? Mr. Tommy Prickett stated Area A will close on April 28. But if the adjusted opening was selected, then the dates would be March 23 through April 21. Then Commissioner Gattle asked Representative McVea if this was acceptable and the Representative answered yes. Chairman Stone then asked about staying with a statewide opening? Mr. Prickett stated they would like to keep the statewide openings. Chairman Stone then asked if comments have been received from other parts of the State? Mr. Prickett stated no. He then explained why the March 30 opening date was selected. Chairman Stone asked how many days difference on a 10 year average would this make for an opening date? Mr. Prickett answered one or two days, and added March 30 would be the latest opening if they stayed with the same weekend. Then Chairman Stone asked Representative McVea if they were provided with this 10 year information? The Representative stated they were not concerned about 10 years from now, but rather just next year. Commissioner Denmon asked if this opening date would jeopardize missing significant gobbling periods in north Louisiana? Mr. Prickett stated, from information collected, the numbers and frequencies of gobbles heard has continued to increase until the opening day of the season. He added that the turkey season should not open after the peak of gobbling has occurred. Commissioner Gattle asked Mr. Don Puckett if the Commission could change the Notice of Intent to open turkey season on March 23? Mr. Puckett stated the Commission could adjust the dates by passing a resolution to amend the final rule. Chairman Stone commented he was concerned the Commission may hear rumbles from other areas. Commissioner Gattle stated he was in favor of opening the turkey season on March 23 and felt it prudent to let the public know the Commission was considering this date for a statewide opening. Then he asked if there were any other public comments.

Mr. Russell Hutchinson, Tri-Parish Wild Turkey Chapter, began thanking the Department for doing an excellent job in restoring the wild turkey. He felt it was important to go out during the earlier

spring mornings and also felt there would be very little if any opposition to the earlier statewide opening. This date is also the same opening as the State of Mississippi and Mr. Hutchinson felt it would relieve some of the pressure on the turkeys.

Commissioner Gattle made a motion giving notice that the Commission intends to amend the final rule by opening the turkey season on March 23 instead of March 30. Mr. Prickett asked that the motion include adjusting all of the seasons and WMAs also. Commissioner Gattle stated that was the intent of his motion. Commissioner McCall seconded the motion and it passed with no opposition.

**Maurepas Swamp WMA - Presentation by Representative Bobby Faucheux** began with the Representative apologizing for not making the last meeting when this was discussed. He added that the general laws in Louisiana can not be changed until the Session of 2003. There will be 499 members of camps affected with the creation of the Maurepas Swamp WMA. On August 28, 2001, a letter from Secretary Jenkins was sent notifying these people their leases would not be renewed. Last year a similar letter was sent, but then when July came around the letter was retracted. Representative Faucheux then read from a recent article that appeared in the Metro Section of the Times-Picayune. He asked the Commission to reconsider the closure of 9 camps for this particular year until such time as policies can be changed by the Legislature. After reviewing the donation for the St. John area, Representative Faucheux stated he saw no prohibition to leasing those camps until a management program can be established. Copies of deer herd management plans from three camps were provided to the Commissioners. The hunting camps have made the herd population what they are through contacts with the Department staff and other people. If these camps were not managed, Representative Faucheux commented there would be no deer on the WMA. It will take a period of time for Department staff to learn about the deer herd, whereas they could talk with camp owners and learn how they have managed the deer for the last 50 years. Also, by allowing camp owners to remain on the WMA will reduce the possibility of criminal activity occurring. Again, Representative Faucheux asked the Commission to allow these people the chance to go into their camps from November 1, 2001 until the end of January 2002. This would give the opportunity for all parties to meet and come up with a plan to make the WMAs the best they can be. An example of state lands being leased to people occurs in the Atchafalaya Basin. Representative Gary Smith asked that a letter addressed to Secretary Jenkins be

submitted for the record. The WMAs are examples of natural resources that should be more accessible for the citizens of Louisiana to be used as much as possible. Representative Faucheux agreed that the campers would abide by all of the rules and regulations set forth by the Commission and Legislature. With regard to the new tagging system, the Representative stated they were working with the staff to make the permits as accessible as possible. From a meeting with the Governor, Representative Faucheux understood he wanted to try to work with the campers as long as it does not affect the general population. Commissioner Denmon asked what type of legislation would be proposed to change these rules? Representative Faucheux stated they have not started working on the process, but wanted to look at the policies that State Lands use as long as it does not conflict with the Constitution or the will of the citizens. He added he does not feel camps on WMAs would conflict with what was occurring in State Parks and Atchafalaya Basin. Commissioner Denmon then asked if proposed legislation would be to allow campers to remain permanently and/or on other WMAs? Representative Faucheux stated that was a possibility or maybe the camps would be phased out. Again, he noted the 9 camp sites in question were never given the opportunity to buy their camps, but there are 70 privately owned camps along the Blind River that will be able to use the WMA for hunting or fishing. Another discussion going on is the buying of additional lands outside of the WMA and exchanging that acreage for the land where the camps are now located. Commissioner Denmon then asked if the people in the camps were given an opportunity to renew their leases? Representative Faucheux stated the people in the camps along Blind River were allowed to purchase those sites. But the people along the Reserve Canal and Mississippi Bayou were never given the opportunity to buy.

Secretary Jenkins stated a letter was actually sent on June 13, 2001 from the prior landowner canceling all of the leases, which means no one has a lease and the property belongs to the Department. He added that to re-lease or sale the property would break the Deed of Donation. It has been a historic policy for this Department not to allow individuals to own property within our property. Over 250 camps have been removed from WMAs in prior years, commented Secretary Jenkins. In the Governor's meeting, the Governor stated it would be unconstitutional to consider leasing the land. Secretary Jenkins then stated they would meet with the camp owners and Representative Faucheux to see if minor adjustments could be made. The leases that are on State Lands property right now will not be renewed when their time expires. The land was

accepted by the Department with no leases, but if the land was leased, then the public bid process would have to be followed, added Secretary Jenkins. Commissioner Gattle asked if the 9 camp sites were on leased property and not owned property? Secretary Jenkins stated these sites were on year to year leases. Commissioner Gattle then asked if L & M Holdings notified the camp owners in June that the leases would not be renewed? Secretary Jenkins stated yes. He added the Department notified these people as soon as the Department acquired the property which was in August. The Department has a lot of restraints on what can be done legally with the WMA. Commissioner Denmon asked Representative Faucheux if the issue was the time needed to vacate the property or was it to allow the people to keep their camps permanently? Representative Faucheux stated he was asking that the camp owners be allowed to occupy their camps from November 1 through the end of January. Commissioner Denmon asked if the issue was more of an orderly transition? Representative Faucheux answered yes, at this time. Commissioner Denmon stated he appreciated what the Representative was asking for, but noted the Department has to have a policy and it has to apply to all WMAs. Chairman Stone then asked for a motion and none were made.

The **Monthly Law Enforcement Report for September** was given by Major Keith LaCaze. The following numbers of citations were issued during the month of September.

Region I - Minden - 49 citations and 1 warning.

Region II - Monroe - 60 citations and 6 warnings.

Region IV - Ferriday - 43 citations and 5 warnings.

Region V - Lake Charles - 143 citations and 5 warnings. Commissioner McCall asked Major LaCaze to explain the citation "failure to comply with charterboat regulations". Major LaCaze stated he was not familiar with it but added he would find out.

Region VI - Opelousas - 118 citations and 12 warnings.

Region VII - Baton Rouge - 186 citations and 14 warnings.

Region VIII - New Orleans - 192 citations and 25 warnings.

Region IX - Schriever - 265 citations and 46 warnings.

Oyster Strike Force - 59 citations.

Seafood Investigation Unit - 23 citations.

SWEP - 7 citations.

Refuge Patrol - 52 citations and 17 warnings.

The grand total of citations issued statewide for the month of September was 1,290. Also there were 141 warning citations issued statewide. The aviation report for September 2001 showed enforcement pilots flew three airplanes a total of 49.2 hours for enforcement and 23.9 hours for other divisions. Three citations were issued. Then Major LaCaze announced a total of 4,503 students received their hunter education certificates for the month. Also he reported a new Wildlife Enforcement Training Academy began on October 1 with 20 students. Commissioner McCall asked how long will the class last? Major LaCaze answered about 6 months.

Mr. Bennie Fontenot handled the next agenda item, a **Resolution for Domestication of Freshwater Prawns**. The resolution would allow fish farmers in Louisiana to attempt to raise freshwater prawns. Research was conducted on this fish at Rockefeller Refuge and staff there recommends that they be allowed into Louisiana. Work has also been conducted with the LSU Extension Service and they are in favor of domesticating this fish. Nature controls this animal when water temperatures reach 55° or lower. The Department continually receive requests asking for a chance to experiment with this fish. Mr. Fontenot then introduced Dr. Greg Lutz with the LSU Extension Service and stated he could answer questions the Commission may have. Commissioner Gattle asked if the Malaysian prawn would be raised only in ponds and would not be released into state waters. Mr. Fontenot stated they would be raised under the guidelines of a Fish Farmer. Commissioner Gattle asked if the prawn had any negative effects to Louisiana's indigenous fish? Mr. Fontenot answered no. Chairman Stone asked what was the target size for the fish? Dr. Lutz stated typical size for marketing is 20 to 25 to the count. Other states conducting research included North Carolina, Indiana, Kentucky, Mississippi, Texas and Florida. Chairman Stone asked if any impact studies have been conducted on the shrimp industry? Dr. Lutz stated there has been no documented evidence of an impact. He then explained the life cycle of this particular prawn. Hearing no further questions or comments,

Chairman Stone then asked Mr. Fontenot to read the Resolution. Commissioner McCall made a motion adopting the Resolution and it was seconded by Commissioner Gattle. The motion passed with no opposition.

(The full text of the Resolution is made a part of the record.)

LOUISIANA WILDLIFE AND FISHERIES COMMISSION

RESOLUTION

October 4, 2001

Pursuant to R.S. 56:411 et seq., this Commission does hereby officially give its approval for the freshwater Malaysian Prawn (*Macrobrachium rosenbergii*) as an exotic fish which may be grown, managed and harvested as a "domesticated fish" under the Domestic Fish Farming Program.

---

Dr. H. Jerry Stone, Chairman  
Louisiana Wildlife & Fisheries  
Commission

**A Notice of Intent on an Outdoor Press License** was presented by Ms. Marianne Burke. This Notice of Intent came as a result of Act 582 from this last Legislative Session. It requires the creation of a new Outdoor Press License for non-resident members of the outdoor press. This license covers a basic and saltwater fishing license for the fee of \$20 for four consecutive days. This has been a joint venture between the Culture, Recreation and Tourism Office (CRT), Louisiana Promotion and Travel Association (LPTA) and this Department. CRT has agreed to certify a member of the press for the Department. Once that person is certified, the Department will then approve or disapprove the application. The outdoor press member must be directly related to producing stories or broadcast for Louisiana. Chairman Stone asked if this allows these people to be treated as residents? Ms. Burke stated yes, more or less. Commissioner Denmon asked how much would the license cost if this special license was not approved? Ms. Burke answered \$60, but it could depend on each situation. Commissioner Denmon then asked if the license covers fishing only and was this what the Legislation provided? Ms. Burke stated it was for fishing only because some outdoor writers do not meet the hunter education

requirement for hunting. She added that 99 percent of the writers are in Louisiana to talk about fishing. CRT and LPTA were agreeable with the Notice of Intent.

Chairman Stone asked Mr. Joe Macaluso if he had any comments. Mr. Joe Macaluso, outdoor writer for The Advocate, began stating he worked closely with LPTA on this bill and told them there is already a fee that covers charterboats. He felt the bill did not go far enough in establishing a hunting license. There are less than 100 people in the country that works for a daily newspaper in recreation and outdoor writing. Mr. Macaluso commented this was a good bill for some writers. He added that he was amazed at the number of stories on Louisiana especially from the Venice and Calcasieu Lake areas.

Ms. Burke noted that the writers will be able to plan ahead of time and there should be enough time to prove who they are and why they will be in Louisiana. Commissioner McCall made a motion accepting the Notice of Intent and it was seconded by Commissioner Gattle. The motion passed unanimously.

(The full text of the Notice of Intent is made a part of the record.)

#### NOTICE OF INTENT

##### Department of Wildlife and Fisheries Wildlife and Fisheries Commission

The Wildlife and Fisheries Commission does hereby give Notice of Intent to promulgate a Rule, LAC 76:I.327.P, which provides a special outdoor press license for purchase by nonresident members of the outdoor press for a fee of twenty dollars. The license shall be valid for four consecutive days. Authority for adoption of this Rule is include in R.S. 56:647.1. Said Rule is attached to and made part of this Notice of Intent.

#### Title 76

#### WILDLIFE AND FISHERIES

##### Part I. Wildlife and Fisheries Commission and Agencies Thereunder

## Chapter 3. Special Powers & Duties

### Subchapter H. Electronic Licenses Issuance

#### §327. Recreational Electronic Licensing

\* \* \*

P. In lieu of recreational basic fishing and recreational saltwater fishing license the Department may issue a special Outdoor Press License to nonresident members of the outdoor press which will include basic and saltwater fishing.

1. A fee of twenty dollars will be charged for each outdoor press license issued and the license shall be valid for four consecutive days.

2. All Outdoor Press licenses will be issued from the Baton Rouge Headquarters location.

3. To qualify for certification an applicant must submit to the Department of Culture, Recreation and Tourism one or more of the following:

- a. Recent tear sheets of published articles;
- b. Letter of assignment from publication, television or radio company;
- c. A written recommendation from one of the Department of Culture, Recreation and Tourism's international offices;
- d. A written recommendation from Travel South USA, Louisiana Travel Promotion Association or similar organizations;

4. In no case will the Department of Culture, Recreational and Tourism forward an application from any individual or group not directly involved in producing stories or broadcast materials pertaining to Louisiana fishing and/or outdoor recreation opportunities.

5. Certified applications with all supporting documents and license fees shall be forwarded to the Department of Wildlife

and Fisheries for approval. The license fee shall be returned to the applicant for any application not certified by the Department of Culture, Recreation and Tourism or approved by the Secretary of the Department of Wildlife and Fisheries.

AUTHORITY NOTE: Promulgated in accordance with R.S. 56:6(21) and R.S. 56:641.1.

HISTORICAL NOTE: Promulgated by the Department of Wildlife and Fisheries, Office of Management and Finance, LR 24:505 (March 1998), amended by Department of Wildlife and Fisheries, Wildlife and Fisheries Commission, LR 26:1078 (May 2000), amended by Department of Wildlife and Fisheries, Office of Management and Finance, LR 27:1243 (August 2001), amended by Department of Wildlife and Fisheries, Wildlife and Fisheries Commission, LR .

The Secretary of the Department of Wildlife and Fisheries is authorize to take any and all necessary steps on behalf of the Commission to promulgate and effectuate this Notice of Intent and the final rule, including but not limited to, the filing of the fiscal and economic impact statements, the filing of the Notice of Intent and final rule and the preparation of reports and correspondence to other agencies in government.

Interested persons may submit comments relative to the proposed Rule to Marianne Burke, Public Information Section, Department of Wildlife and Fisheries, Box 98000, Baton Rouge, LA, 70898-9000, prior to Thursday, December 6, 2001.

In accordance with Act #1183 of 1999, the Department of Wildlife and Fisheries/Wildlife and Fisheries Commission hereby issues its Family Impact Statement in connection with the preceding Notice of Intent: This Notice of Intent will have no impact on the six criteria set out at R.S. 49:972(B).

Dr. H. Jerry Stone  
Chairman

The **Public Information Quarterly Section Report** was also handled by Ms. Marianne Burke. A video was shown covering the publications, special events, media events and library activities conducted during this quarter. Following the video, Ms. Burke thanked Mr. Joel Courtney for assembling it in a day's time. The footage from National Hunting and Fishing Day in Baton Rouge helped show that it is one of the most positive images for the Department. Even though there are four sites throughout the state for this

event, the Public Information Section coordinates this event for Baton Rouge only. Coordination for the other locations are through the Educators in the Fur & Refuge Division. Ms. Burke felt all of the staff statewide does an excellent job in promoting this event. In July, a group of federal and state fish and game public information officers, called the Association for Conservation Information, met and chose the *Louisiana Conservationist* calendar issue as the third place winner in the nation. Chairman Stone thanked Ms. Burke for a job well done.

The Commissioners agreed to hold the **February 2002 Meeting** on Thursday, February 7, 2002 beginning at 10:00 a.m. at the Baton Rouge Headquarters.

Chairman Stone then asked for any **Public Comments**. Mr. Chris Guidry began by commending the Public Information staff for a wonderful video. He stated he wanted to reiterate everything that Representative Faucheux asked for from the Commission. Mr. Guidry then asked that an editorial from the Times-Picayune on hunters from St. John the Baptist Parish be entered into the record. Also, he asked that a copy of a Resolution passed by the Parish Council be entered. Finally, Mr. Guidry encouraged the Department to answer questions the local government has on what to expect from the WMA designation.

There being no further business, Commissioner Gattle made a motion to **Adjourn** the meeting and it was seconded by Commissioner Denmon.

### Turkey hunters win concessions

By **JOE MACALUSO**  
Advocate outdoors writer

South Louisiana hunters won two concessions Thursday.

The first went to turkey hunters during the Louisiana Wildlife and Fisheries Commission meeting.

The second — to members of nine hunting clubs in the newly named Maurepas Swamp Wildlife Management Area — came after the LWFC's monthly gathering.

State Rep. Tom McVea, R-St. Francisville, pleaded the case for the turkey hunters in the Florida Parishes. McVea told the commission that hunters in his district, which takes in parts of East and West Feliciana, East Baton Rouge and St. Helena parishes, believe the March 30, 2002, opening date for the spring turkey season is too late.

Department of Wildlife and Fisheries staff proposed the date earlier this year as part of the 2002 turkey season package. Unlike past seasons, the date applies to all three turkey-hunting areas in the state.

Wildlife Division administrator Tom Prickett said the single, statewide opening date will help take hunting pressure off the state's turkey population, especially in the Florida Parishes where turkey numbers have been falling for the last 10 years.

McVea said the opening date for the 1998 season came in mid March and two years ago the opener was moved to the second-to-last Saturday in March.

"Now, it's the last weekend in March, and we believe that's too late," McVea said.

Hunters favor the earlier opening date because of cooler temperatures and fewer biting insects in the woods.

LWFC member Tom Gattle proposed to amend the Notice of Intent posted earlier this year and to move the date to March 23, 2002.

Prickett asked the LWFC to move the season close to April 21, 2002 and

to apply the March 23 date to all three areas.

"That shouldn't be a detriment to turkey numbers," Prickett said about moving the season up a week and keeping the number of days in the season the same as those proposed in August.

That said, the commission voted to move the seasons in Areas A, B and C up one week. The commission's ratification of the spring turkey seasons will come at its December meeting.

Rep. Bobby Faucheux, D-Gramercy, did the bidding for the hunters affected by the state's taking the near 63,000-acre donation for the Maurepas Swamp WMA. The Richard King Mellon Foundation donated the land in two tracts to the LDWF during the summer.

Nine hunting clubs, some of which have leased lands in the new WMA for 50 years, were prohibited from using their long-standing campsites by the LDWF.

All nine clubs' campsites are on the Reserve Canal, which runs through the WMA.

Faucheux cited the contributions of the clubs to the management of the cypress-tupelo swamp, the increased number of deer and a reduction of illegal hunting in the area formerly known as the Lutchter-Moore Tract.

In late August, LDWF assistant secretary Phil Bowman notified the clubs that they would not be allowed to use the long-established campsites from Nov. 1 through Jan. 31, 2002, and that clubs has until June 30, 2002 to remove the camps.

LDWF secretary Jimmy Jenkins Jr. told the LWFC the matter would be worked out after the meeting.

It was, and the LDWF will allow the clubs to use their campsites during the November through January period as long as the clubs begin to dismantle the campsites then and through the first six months of 2002.

"It's a start right now," Reserve Game and Rod Club member Ricky Jacobs said. "The way I look at it, it was more than we had when we came here."

Faucheux said there will be more meetings between the clubs and the LDWF to iron out other differences over use of the campsites.

In other action, the LWFC approved fish-farming activity for freshwater Malaysian prawns, approved a Notice of Intent to create a special outdoor press fishing license and set its Feb. 2002 meeting date for Feb. 7.

# TATTOON'S HUNTING CLUB

P O Box 1  
RESERVE, LA 70084  
985-536-2537  
August 20, 2001

Representative Robert Faucheux  
197 Belle Terre Blvd, Suit 101  
Laplace, La 70068

Dear Bobby:

Attached is an account of the deer management practices of our club. We attempted to give a brief history for a more complete understanding of the large amount of hard work and money that went into the effort.

If anything, there are more deer in the swamp now then at any other time. The size and quality in not what it was. Our concern is the waste that will occur through disease or a hard winter. Quality will take longer to return unless more undesirable deer can be culled. This can only be done through a longer hunting season. If man doesn't do it, nature will.

When we used dogs and airboats, Wildlife and Fishers set our seasons to include 11 doe days and 55 days with/without dogs. Now that these advantages are removed, they reduce the season to less than a third.

Please contact me should you need additional information. Thank you for your efforts on behalf of what is right.

Sincerely,

Dean Torres  
Secretary/Treasurer

Tattoon's Hunting Club  
Reserve, La 70084

Deer Management Practices

History:

Prior to the opening of the Mississippi River Gulf outlet, our deer herd was average for a typical cypress tupelo swamp. Yearly harvest amounted to 20-25 deer. Only two-three were does. Each year we also had about 5-6 really nice bucks. With a steady deer population and adequate numbers taken each year, we did little to nothing to manage the herd.

With the opening of the MRGO came unusually high tides and salt water intrusion. We made few hunts that year and noticed the increase of salt-water marsh vegetation and along with it the loss of traditional browse and cover in the swamp. Areas close to the lake that were covered in willow suddenly became open holes. For the next five (5) years, the harvest became very low (under five deer). One year (1976) we did not kill a single deer. On most of the hunts we would not even see a deer let alone take one. There may have been an outbreak of blue tongue in 1978, as we did find several dead deer.

In 1980, we began to see an increase in the number of deer. We contacted Wildlife and Fishers and had a biologist come out to see the property. He found very little evidence of any deer and suggested that we cut every canal bank we had to increase food and cover. We began that process (on a limited basis) in 1980. As with most changes, it took time to convince members that the effort would result in more and better deer.

The Plan:

It was evident to us that we had to insure that NO does be harvested in an effort to bring up the numbers. Strict rules were instituted to prevent the taking of does even on legally sanctioned "doe days". It was very difficult to get our hunters to pass on does when others were shooting them. We did succeed in keeping to the plan.

Beginning in 1985, we required members to cut canal bank a certain number of hours as part of membership responsibility. We also began a very limited fertilization program. Some members began to plant both on the canal bank (honeysuckle and oak trees) and in the swamp (willows).

The Results:

From 1980 to 1987, our average harvest increased to between 8-10 deer. We did have about 2-3 really nice deer. We began to see more and more deer each hunt.

From 1988-1998, our average harvest was around 14-15 deer. The numbers continued to increase to where in the last years it was rare to NOT see a deer on any hunt.

In 1999 we agreed to begin taking a limited number of does as average size began to decrease and we were seeing 10-15 does on most hunts. To compliment this, decided to pass on spike bucks in an effort to increase the number of better bucks. Unfortunately,

we only took two (2) does that year, none in 2000 and only two again in 2001. We also collect fines for the taking of three (3) spikes. In the interior areas, over browsing in late winter was also noted.

The average size of harvested deer in the 99/00 season was 112 lbs. Average antler size came to 5 points. The largest deer was a 125 lb, 10 point taken on 1/22/00.

In the 00/01 season, the average was 117 lbs, with average antler size at nearly 6 points. The largest deer was a beautiful 190 lb 10 point taken on 11/25/00. Really bringing the size issue into question was a 75 lb, 5 point taken on 12/26/00. Also during this season, it was not unusual for standers to see 8-9 does/fawns in one group go through the line. We saw deer on EVERY hunt made in 00/01. We also found four (4) dead deer in areas where other hunters would not be (extreme interior) and we had not shot and "missed" on any deer.

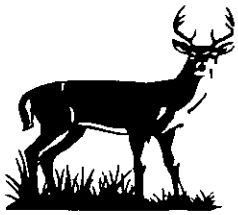

#### Conclusion:

The area is at or near carrying capacity. Hunter efforts, weather events (Juan, overly mild winters) and increased cover (cutting canal banks to thwart outlaws) have combined to bring us to almost too many deer. At best the heard is way out of recommended doe to buck ratio.

Our response this year (had we continued to hold the lease) was to do a deer survey in September and set a specific number of does to be harvested in certain areas. We planed to take at least 10 does, assuming no disease or natural disaster occurred.

Difficult access, the ban on dogs and airboats, the fact that no one is going to clean runs for others to use, and the extremely limited hunting season will only worsen the problem. We will loose more deer to disease than we will to hunting. Should we get a bad winter, the kill will double the lost from both hunting and disease.

In years past, Wildlife and Fishers set the either sex days at eleven (11) each year. We had a total of 55days with/without dogs. Now we have still hunt only, very limited access (even for swamp veterans) and less than a third of the time to hunt.

# RESERVE GUN AND ROD

Robert R. Fauchaux ( Dist. 57)  
197 Belle Terre Blvd., Ste. 101  
Laplace, LA. 70068

Back in 1985 we notice a vast decline in our deer herd. We hunted most of the season seeing very few deer. Our dogs ran very few deer. We couldn't understand way. We saw very little deer signs. Talking to the other hunters and surrounding clubs, we then realize we were losing our herd.

The following season we did lots of scouting before the opening day. Same results, very few deer. The surrounding clubs reported the same thing. So we decided to take things in our own hands.

We as a club decided not to shoot any does. This went on for ten years. As time went on we notice our herd coming back. We average five or six deer a year in this time span. Every now and then someone would kill a nice rack deer.

In 1996 we decided to start shooting five does during the season the does had to be eighty pounds or better. We killed one doe that year. Hunters let the does pass. We finished the season with nineteen bucks and that one doe. The bucks were five points or better. We saw many does with two young deer.

In 1997 our club did the same thing. Five does, eighty pound or better, and five point or better buck. We killed three does, and twelve bucks. The dogs gave us many enjoyable hunts. The dogs started running from the time they were turn loose till we killed the deer or until they quit. We heard dogs running all day. It was a pleasure being on stand just to hear six and seven dogs running deer and watching deer pass the stand.

In 1998 till the present our club has the same rules for killing deer. Our club has come a long way. We did a lot of hard work cutting trees on the canal banks to give the deer feed and cover. We planted trees in some places, planted grass where needed and did the little things that help our herd come back. All this was done with the help of thirty five to forty five members and their young sons. We now have a waiting list of hunters who wants to join our club.

In the forty seven years our camp has been there we had many hunters come and go. We also have many hunters who have stayed together to keep this club. This club has kept many kids off the streets and away from drugs. Our kids look forward to spending the weekends and holidays at the hunting camp.

Yours truly

*Reserve Gun + Rod Club*

*Ricky Jacob*

To Whom It May Concern:

The part that St. John Hunting Club played in the deer herd recovery in the swamps of St. John the Baptist Parish started about thirty years ago, when Reserve Canal was widened during the construction of I-10. The process of widening the canal left about twenty yards of bare levee on both sides of the canal. This canal bank is three to five feet higher than the swamp creating a natural refuge in times of high water. As natural feed grew here, the deer feeding on this ridge with no cover became easy prey for night hunters. The deer population fell so low that even hunting with dogs, we hunted some seasons without bagging a single deer. Then as willows grew on the canal bank, they shaded the ground and hindered the growth of cover. This also gave clear shots to outlaws hunting at night. St. John Hunting Club decided to cut these willow trees, which would allow briars and box elder to grow, creating a thick cover and a food source for our deer. Our club also started taking note of the vehicles in the launch parking lot at night. Shift workers off on weekdays stayed overnight at the camp during high water to discourage "headlighting".

Another way that our club helped the deer herd to recover was by discouraging hunters who previously taken a buck from shooting does. By encouraging this practice, younger hunters were more easily able to bag their first deer. This enabled us to keep a respectable camp membership and a group of men young enough to chain saw trees yearly. We also had several seasons when we had a "no doe" policy for the whole season

to help the herds to grow. During the hunting season of 2000/2001, we encountered very high water in the swamps of Lake Maurepas. Herds of over a dozen does, some with fawns, passed through our hunts during either-sex segments. It is common for this to happen in areas where there is good feeding. But we who have gone through lean times in deer hunting know better than to allow a legal slaughter. These deer are our future.

By no means is St. John Hunting Club unique in its successful efforts in aiding the recovery of the deer population. While each club on Reserve Canal has its own approach, we equally share in having helped restore this priceless resource. It must also be said that throughout this time, we were acting in support of the most able and competent wildlife agents in the state, who too often were asked to do the impossible. As members of the St. John Hunting Club, we sincerely hope that we will the privilege of continuing to help law enforcement and wildlife management in their efforts to protect our wildlife resources as we have for the past fifty years.

Davis Madere, Jr.

St. John Hunting Club

LOUISIANA WILDLIFE AND FISHERIES COMMISSION  
RESOLUTION

Pursuant to R.S. 56:411 et seq., this Commission does hereby officially give its approval for the freshwater Malaysain Prawn (*Macrobrachium rosenbergii*) an exotic ~~species~~<sup>fish</sup> which may be grown, managed and harvested as a "domesticated fish" under the Domestic Fish Farming Program.

## NOTICE OF INTENT

### Department of Wildlife and Fisheries Wildlife and Fisheries Commission

The Wildlife and Fisheries Commission does hereby give Notice of Intent to promulgate a Rule, LAC 76:I.327.P, which provides a special outdoor press license for purchase by nonresident members of the outdoor press for a fee of twenty dollars. The license shall be valid for four consecutive days. Authority for adoption of this Rule is include in R.S. 56:647.1. Said Rule is attached to and made part of this Notice of Intent.

## Title 76

### WILDLIFE AND FISHERIES

#### Part I. Wildlife and Fisheries Commission and

#### Agencies Thereunder

#### Chapter 3. Special Powers & Duties

#### Subchapter H. Electronic Licenses Issuance

#### §327. Recreational Electronic Licensing

\* \* \*

P. In lieu of recreational basic fishing and recreational saltwater fishing license the Department may issue a special Outdoor Press License to nonresident members of the outdoor press which will include basic and saltwater fishing.

1. A fee of twenty dollars will be charged for each outdoor press license issued and the license shall be valid for

four consecutive days.

2. All Outdoor Press licenses will be issued from the Baton Rouge Headquarters location.

3. To qualify for certification an applicant must submit to the Department of Culture, Recreation and Tourism one or more of the following:

- a. Recent tear sheets of published articles;
- b. Letter of assignment from publication, television or radio company;
- c. A written recommendation from one of the Department of Culture, Recreation and Tourism's international offices;
- d. A written recommendation from Travel South USA, Louisiana Travel Promotion Association or similar organizations;

4. In no case will the Department of Culture, Recreational and Tourism forward an application from any individual or group not directly involved in producing stories or broadcast materials pertaining to Louisiana fishing and/or outdoor recreation opportunities.

5. Certified applications with all supporting documents and license fees shall be forwarded to the Department of Wildlife and Fisheries for approval. The license fee shall be returned to the applicant for any application not certified by the Department

of Culture, Recreation and Tourism or approved by the Secretary of the Department of Wildlife and Fisheries.

AUTHORITY NOTE: Promulgated in accordance with R.S. 56:6(21) and R.S. 56:641.1.

HISTORICAL NOTE: Promulgated by the Department of Wildlife and Fisheries, Office of Management and Finance, LR 24:505 (March 1998), amended by Department of Wildlife and Fisheries, Wildlife and Fisheries Commission, LR 26:1078 (May 2000), amended by Department of Wildlife and Fisheries, Office of Management and Finance, LR 27:1243 (August 2001), amended by Department of Wildlife and Fisheries, Wildlife and Fisheries Commission, LR .

The Secretary of the Department of Wildlife and Fisheries is authorize to take any and all necessary steps on behalf of the Commission to promulgate and effectuate this Notice of Intent and the final rule, including but not limited to, the filing of the fiscal and economic impact statements, the filing of the Notice of Intent and final rule and the preparation of reports and correspondence to other agencies in government.

Interested persons may submit comments relative to the proposed Rule to Marianne Burke, Public Information Section, Department of Wildlife and Fisheries, Box 98000, Baton Rouge, LA, 70898-9000, prior to Thursday, December 6, 2001.

In accordance with Act #1183 of 1999, the Department of Wildlife and Fisheries/Wildlife and Fisheries Commission hereby

issues its Family Impact Statement in connection with the preceding Notice of Intent: This Notice of Intent will have no impact on the six criteria set out at R.S. 49:972(B).

**RESOLUTION**

**ST. JOHN THE BAPTIST PARISH COUNCIL**  
**STATE OF LOUISIANA**  
**R MMI-34**

Mr. Duffy Proposed and Mr. Wilson Seconded the following resolution.

***WHEREAS***, St. John the Baptist Parish has many beautiful scenic lakes and waterways,  
Particularly Lakes Maurepas and Pontchartrain; and

***WHEREAS***, local residents have for years enjoyed the bountiful beauty and wildlife in and  
Around Lakes Maurepas and Pontchartrain; and

***WHEREAS***, the Reserve Relief Canal is the major tributary access to the Lakes Maurepas  
And Pontchartrain; and

***WHEREAS***, many St. John the Baptist Parish residents have enjoyed camp site locations in  
And around the Reserve Relief Canal for many years without any degradation to  
The waterways or surrounding wetland environment; and

***WHEREAS***, hunters and fishermen have maintained and enhanced the wetland environment  
Of water basin areas; and

***WHEREAS***, the Conservation Fund recently purchased over 23,000 acres surrounding the  
Reserve Relief Canal and Lakes Maurepas and Pontchartain; and

***WHEREAS***, the Conversation Fund in turn donated the land to the Louisiana Department of  
Wildlife and Fisheries which has yet to make public its plan for public access,  
Wildlife habitat; and

***WHEREAS***, the proposed I-10 Interchange could be negatively impacted by the WMA and we  
Would like assurances from the State that the parish can continue to pursue another  
Interchange in the Reserve area without any land use interference from the WMA  
Designation; and

***WHEREAS***, in regards to Flood Water Pumping, the parish would like to have assurances from  
The State that there will be no pumping restrictions placed upon the parish due to  
The WMA designation, and concerns that restrictions could be placed upon the  
Residents of St. John the Baptist Parish due to animal nesting, or high water; and

**WHEREAS**, in regards to the Hurricane Protection Levee, the parish is in final discussions with The Army Corps of Engineers (ACOE) about levee alignment to protect the parish From tidal waters of Lakes Pontchartrain and Maurepas. The parish is financially Responsible to cost share with the ACOE and the WMA designation could Significantly raise the Parishes share of the cost. The parish would like Assurances from the State that any additional cost due to WMA designation Will come from the State and not the taxpayers of St. John the Baptist Parish.

**NOW, THEREFORE**, the St. John the Baptist Parish Council and Administration request the Governor of the State of Louisiana, Elected State Delegation and the Louisiana Department of Wildlife and Fisheries to reject any land donation until the issues of public access is settled and any overnight camp site locations be grand fathered into any land use policy that is established by the Louisiana Department of Wildlife and Fisheries.

The above resolution having been submitted to a vote, the vote thereon was as follows:

**YEAS:** Rainey, St. Pierre, Wolfe, Wilson, Boucvalt, Faucheux, Lee, Duffy, Farlough

**NAYS:** None      **ABSENT:** None      **ABSTAINING:** None

The result of the vote on the resolution was 9YEAS, 0 NAYS, 0 ABSENT, 0 ABSTAINING and this resolution was declared adopted on the 14th Day of August, 2001.

/s/Cleveland Farlough  
**COUNCIL CHAIRMAN**

/s/Audrey Millet  
**SECRETARY**

/s/Nickie Monica  
**PARISH PRESIDENT**

**CERTIFIED**, to be a true and correct copy of a resolution adopted by the St. John the Baptist Parish on the 14th Day of August, 2001.

## Endangered hunters

10/04/01

There aren't many people like James "Poncho" Duhe anymore. An alligator hunter who both lives and makes his living in the swamps surrounding Lake Maurepas, the 65-year-old Mr. Duhe is in many ways a relic in a technologically driven age.

Indifferent to his rarity, though, the state Department of Wildlife and Fisheries is preparing to evict Mr. Duhe from the land on which he has lived for the past 59 years.

The department has plans to convert a 24,000-acre tract of swampy land near Lake Maurepas into a wildlife management area. That means Mr. Duhe and many other St. John the Baptist Parish residents with homes or camps in the swamp will have to pack up their homes and leave.

They have until the end of October to leave. They will be allowed to return, eventually, but only as visitors. They will not be allowed to remain in the new management area overnight. There also will be other more restrictive times when the area will be off limits to everyone so that, according to Wildlife and Fisheries officials, the wildlife there can be given an opportunity to reproduce.

Too bad Wildlife and Fisheries isn't as interested in preserving swamp culture as it is in preserving the swamps. That's unfortunate, because Mr. Duhe is a living, breathing, alligator-skinning museum of a near-forgotten way of life.

Wildlife and Fisheries officials aren't villains here. They want to save the area for posterity's sake, and that goal does deserve praise. It's the myopia that's accompanying their efforts that's troublesome. They see the Poncho Duhes of the world as an impediment to swamp preservation. But considering that people like Mr. Duhe have depended on a balanced ecosystem for their livelihoods, it's a safe assumption that they are just as passionate -- if not more so -- about protecting the land and water from harm.

Mr. Duhe is a trapper. He catches alligators and sells their meat, skin and bones for profit. He has lived along the Reserve Relief Canal since he was 6 years old and says he doesn't know any other life.

Why can't the department allow people who already have established

their homes and camps on the swamp to stay there? A wariness about future development is appropriate, but kicking off the traditional stewards of the land is excessive. Can't the department allow the current group of hunters and trappers to live out their careers and then implement the more restrictive components of their wildlife management plan?

Private citizens are allowed to live on public lands elsewhere, including sometimes in national forests. They are not allowed to own the land, but lease it from the government.

Certainly there should be rules for anyone who makes a home in such a place. They shouldn't be allowed to build anything new, shouldn't be allowed to harm the landscape in any way.

Preserving the swamps is important, but there should be a way of achieving that goal without forcing out those who love the swamps most demonstrably.

### REMARKS:

Representative Baldone is unable to attend the meeting scheduled for 10-4-01 @ 10:00 a.m. Kaye LeBlanc brought the following petitions to our office that she would like submitted to the meeting along with a document showing the proposed meeting dates. These people did not attend previous meeting, since they agreed with the proposed dates + at the meeting the dates were changed. Any questions give me a call  
Vanessa

## Circulation Tools, Inc.

Circulation Tools, Inc. would like to take this opportunity to remind you of the 2001/2002 hunting schedules. If you would like to hunt, please call Charles Dagate @ 800-992-1405 work, 985-879-2598 home, or 880-5175 pager.

We will also have a cookout on the morning of Sept. 1, 2001, opening day of the first dove season, at our office at 104 James Rd in Houma. Brunch will be served at 10:00 am and hunting begins at 12:00 noon. Please call Rhonda @ 800-992-1405 or Charles Dagate at any of the above numbers to R.S.V.P.

### 2001/2002 Proposed Hunting Season Dates

Species	Season Dates	Daily Bag Limit	Possession Limit
Mourning Dove	Sept. 1-9 October 13 - Nov. 18 Dec. 13 - Jan. 4	15	30
Rabbit	Oct. 6 - Feb. 28	8	16
Deer	See Schedule Below	1 antlered and 1 antlerless (When legal on private lands)	6/season

### Deer - Area 7

Archery	Muzzleloader (All - Either Sex)	Still Hunt (No Dogs Allowed)	With or Without Dogs
Proposed Date Oct. 1 - Jan. 31	Proposed Date Oct. 13 - Oct. 19 Jan. 14 - 20	Proposed Date Oct. 20 - Nov. 4 Nov. 17 - Dec. 2	Proposed Date Dec. 8 - Jan 13

To: Terrebonne Parish Legislators, Louisiana Wildlife and Fisheries Commission, and Louisiana Wildlife and Fisheries Department (Wildlife Division/Deer Management)

From: Landowners, Lessees, and Deer Hunters of Terrebonne Parish

Subject: Loss of January 2002 Rifle Season for Deer Hunting in Terrebonne Parish

To Whom It May Concern:

The following landowners, lessees, and deer hunters object to the loss of the January 2002 rifle season for deer in Terrebonne Parish. The loss of the above historic deer hunting opportunity is not based on science or good practice, and is contrary to Louisiana's Department of Wildlife and Fisheries own official publication on Whitetail Deer management, "Managing Whitetails in Louisiana" by David Moreland.

We request that Terrebonne Parish's inclusion in Area 7 be predicated by a historic framework for our parish of at least three weeks of rifle season opportunities in January, or revert Terrebonne Parish to the Area 6 deer hunting framework. We believe these options to be more in line with the majority of Terrebonne Parish's deer habitat requirement.

Sincerely,  
The Following Landowners, Lessees, and  
Deer Hunters in Terrebonne Parish

To: Terrebonne Parish Legislators, Louisiana Wildlife and Fisheries Commission, and Louisiana Wildlife and Fisheries Department (Wildlife Division/Deer Management)

From: Landowners, Lessees, and Deer Hunters of Terrebonne Parish

Subject: Loss of January 2002 Rifle Season for Deer Hunting in Terrebonne Parish

To Whom It May Concern:

The following landowners, lessees, and deer hunters object to the loss of the January 2002 rifle season for deer in Terrebonne Parish. The loss of the above historic deer hunting opportunity is not based on science or good practice, and is contrary to Louisiana's Department of Wildlife and Fisheries own official publication on Whitetail Deer management, "Managing Whitetails in Louisiana" by David Moreland.

We request that Terrebonne Parish's inclusion in Area 7 be predicated by a historic framework for our parish of at least three weeks of rifle season opportunities in January, or revert Terrebonne Parish to the Area 6 deer hunting framework. We believe these options to be more in line with the majority of Terrebonne Parish's deer habitat requirement.

Sincerely,  
The Following Landowners, Lessees, and  
Deer Hunters in Terrebonne Parish

## Hawkins, Susan

---

**From:** Foote, Karen  
**Sent:** Thursday, September 20, 2001 2:03 PM  
**To:** Hawkins, Susan  
**Subject:** FW: October Commission agenda

Sorry about the lack of cc.

-----Original Message-----

**From:** Foote, Karen  
**Sent:** Thursday, September 20, 2001 11:17 AM  
**To:** Roussel, John E  
**Subject:** October Commission agenda

Marine Fisheries has no agenda items at this point.

Susan just told me that Barney White left a message for you that "the FAA had lifted the ban so they didn't need to go before the board for an exemption". I am interpreting that this also means they don't want to go before the Commission for an extension. If this is not true, please advise.
